A message from the Teams - We have received quite a few calls this week from members of the public reporting the gathering of people either at private homes, public spaces or at business premises that should be shut. We will continue to visit these locations if the situation allows at the time, otherwise follow up calls or patrols will take place afterwards on an ongoing basis. We thank everyone that has been following the guidelines at this difficult time.

Tell us about a possible breach of coronavirus (Covid-19) measures -
Is it an emergency?

- is there a threat to life (including road traffic incidents where someone is injured, or the road is blocked)
 - does it feel like the situation could get heated or violent very soon
 - is there a risk of serious damage to property
 - is a serious offence in progress
 - there's serious disruption to the public or there could be
- IF ANY OF THE SITUATIONS ABOVE APPLY – CALL 999

If you're concerned about a business or venue that's open and you don't think it should be, please check the guidance on this first. <https://www.gov.uk/government/publications/further-businesses-and-premises-to-close/further-businesses-and-premises-to-close-guidance>

We're seeking to resolve situations where people appear to be or are contravening the government advice on physical social distancing and the stay at home measures without resorting to enforcement and issuing fines.

Please only tell us about something if you feel there is a significant issue or breach which you think we need to know about. This can be done online -
